A close-up, slightly blurred image of the empirical consulting solutions logo on a document. The logo features a stylized arrow graphic in blue, green, and yellow, followed by the text 'empirical consulting solutions'. Below the logo, the word 'CAPABILITIES' is visible in a dark box.

Dan has spent nearly two decades guiding both startups and established companies to success as an engineer and innovative process leader. His career spans a variety of manufacturing and distribution industries, including both in the business-to-business and business-to-consumer realms. His passion for data-driven decisions ensures process and business enhancements are focused on the greatest opportunities for improvement and return on investment. Like everyone on the ECS team, Dan actively seeks opportunities to drive revenue and accelerate growth.

Known for: *Process engineering and improvement - Continuous improvement - Analytical reasoning*

Extensive expertise in:

- *Operations management*
- *Process improvement*
- *Project management*
- *Supply chain management*
- *Warehousing & production management*
- *Logistics*

Dan formerly worked as a process engineer and operations manager for a diverse range of companies including Amazon.com, Webvan, and CTDI.

Dan earned a B.S in Mechanical Engineering from Penn State University, and holds a Lean Six Sigma® Black Belt Certification.
