

Ann Doerries

DIRECTOR, FINANCE OPERATIONS

adoerries@thinkempirical.com

Ann is an accomplished executive with passion for how the CFO function drives enterprise value.

She brings deep finance management experience and expertise in business strategy, integrated planning, business analysis, risk management and performance improvement to client projects. She is also a proven change leader who positions companies for sustainable growth in challenging environments.

EXTENSIVE EXPERTISE IN:

Strategic planning

Breaking down barriers that impede progress

Inspiring a team to work towards common goals

Driving results via the alignment of technology and talent

Developing innovative approaches to solve problems

Ann has served in financial leadership positions for large global companies in the energy, manufacturing, and consulting sectors. She was most recently CFO of UGI Energy Services, a \$1.3 billion revenue division of UGI. Previously, she led accounting and finance functions at Kinder Morgan, LyondellBasell, Reliant Energy and Baker Hughes. At Deloitte Consulting, she led finance transformation projects, with a focus on enterprise performance management and data analytics.

Ann earned a BBA in Accounting and Marketing from the University of Texas at Austin. She is also a Certified Public Accountant and is Certified in Production and Inventory Management, APICS.
