

Jonathan Singh

ASSOCIATE, SALES OPERATIONS

jsingh@thinkempirical.com

Jonathan is a skilled sales and systems architect and leader. He has the operational expertise to develop a successful strategy and drive the effective execution of sales tactics within an organization.

EXTENSIVE EXPERTISE IN:

Integrations and automations

Automation architecture and development

Solving IT challenges

Enterprise applications

With experience across a range of industries, including healthcare, insurance, transport, information technology, and other areas, Jonathan has worked to successfully guide companies from the development of their automation strategies through to their supporting tactics. He has the know-how and background to provide the needed architecture of both the online and offline elements of integrations, to ensure they are successfully executed and ultimately drive positive results.

Jonathan is certified in Boomi, TIBCO, Biztalk and ITIL.
