

Simon Dukes

ASSOCIATE, MARKETING

sdukes@thinkempirical.com

With more than three decades of experience in the web and graphics industries, Simon has a wealth of knowledge and skills to provide the right solutions for a client's needs.

Simon has worked with clients around the globe in both the B2B and B2C spaces, in addition to the not-for-profit world. His experience spans manufacturing, sales, healthcare, business consulting, legal services, and other industries.

EXTENSIVE EXPERTISE IN:

Web coding and development

Successfully working through the most difficult technical challenges

Adobe Creative Suite/Design

Html/CSS/jQuery/PHP

Over the past two decades, Simon has created and managed WordPress, eCommerce technologies and platforms, and corporate intranet reporting systems for companies of all sizes.

His passion is to learn and experiment with new techniques and technologies. He is especially adept at solving technical problems by bringing a fresh perspective that will drive toward customer-focused results.

KNOWN FOR:

A holistic approach to achieving client goals

Focus on detail

Finding optimal solutions based on the situation
