

Chris DiMascio

SENIOR PARTNER, OPERATIONS

cdimascio@thinkempirical.com

Chris collaborates closely with client executives to develop and execute strategies that facilitate business growth, operational alignment, and productivity improvement.

As a senior advisor with broad operations experience and a background from the FTSE 100, Chris brings a firsthand, realistic view to strategy development and has successfully translated his global experience to the dynamics of small- and medium-sized manufacturers.

EXTENSIVE EXPERTISE IN:

Strategic thinking and execution

Engaging stakeholders

The intersection of engineering, operations, and business strategy

Improving manufacturing efficiencies

Coaching and developing operations and manufacturing personnel

Prior to entering consulting, Chris accumulated considerable experience in operations management within various industries including plastics, automotive, metal fabrication, and chemical processes. He has developed and led operations for both domestic and foreign operations and established a reputation for developing strong operational excellence programs and implementing a solid project management skillset.

Chris holds a bachelor's degree in Mechanical Engineering and an MBA from Penn State University, along with an Executive Strategic Planning certificate from Booth Business School at the University of Chicago. He has completed executive training at the London School of Business.
